Education

- Forest Lake Senior High School (Class of 2021)
 - High School Diploma
- University of Minnesota Duluth (2021-Current)
 - Accounting Major with an Economics Minor
 - I chose an Accounting Major because I enjoy working with spreadsheets and numbers, as well as doing work that is usually very straightforward. The Economics Minor wasn't exactly in the plan when I chose an accounting major, but with the classes I needed to take, it made sense to add that as well.

Skills and Certifications

- I am very adept at working with my hands and most things involving manual labor. I am also very good at working independently and taking on larger projects by myself. Throughout the years, I have gotten very good at independent problem solving, and am able to find solutions to a lot of issues on my own.
